

I am an IT expert and excels in aligning IT strategy with business vision. Also, I am fullstack developer, lecture/manager/trainer in IT/Math/Stats for more than 15 years. Experienced in Linux/Win, servers and DBs, cybersecurity, artificial intelligent, DevOps, virtualization, data science, and cross platforms developer. I obtained my BSc and MSc degrees from JUST in 2002 & 2006. As for my work experience, I played significant roles in several teams and committees, such as: University's initiatives for 2030 vision, quality and development, Innovative center, HR, scientific research, and e-learning. Also, I used to be a consultant for several IT companies in Saudi and Jordan. Therefore, I do believe that I possess the right attributes and qualities which qualify me to be such a priceless asset you could have.

SKILLS

Hasan Khaled Al-Bzoor

IT Expert & Full-Stack Developer www.nowaty.com

WORK EXPERIENCE

Nowaty & JUST

Nowaty IT, Jordan University of Science and Technology.

Irbid, Jordan

Sep 2019 - Now

University of Hail

Information and Statistics Center, Preparatory Year Hail, Saudi Arabia

Sep 2017 - Sep 2019

University of Hail

Hail Virtual Training
Academy
Hail, Saudi Arabia
Sep 2016 – Sep 2019

University of Hail

Cyber Security Center Hail, Saudi Arabia Sep 2014 – Sep 2019

University of Hail

University Vice Rector for Academic Development and Community Service Hail, Saudi Arabia Sep 2013 – Sep 2019

University of Hail

Deanship of Information and Technology Hail, Saudi Arabia Sep 2009 – Sep 2019

KSU

King Saud University
Science College
Riyadh, Saudi Arabia
Sep 2007 – Sep 2009

CEO & Entrepreneur, Lecturer & Trainer

- Founder for several leading projects at JUST.
- Trainer in Linux server management & Tuning.
- Performing high availability of E-Learning.
- Effective member in deanship of quality.
- Lecturer for several courses at IT College.

IT Manager

- Preparing the roadmap.
- Performing the infrastructure and E-Systems.
- Preparing annual report.
- Policy preparation and documentation.
- Lecturer for several courses at IT College.

IT Manager

- Linux servers' installation & administration.
- Doing the policy, procedures and roadmaps.
- Providing solutions and strategic planning.
- Preparing reports and documentation.

Cyber Security Team Lead

- Scanning vulnerabilities of web apps.
- Performing security configurations on servers.
- Running comprehensive penetration tests.
- Conducting training sessions.
- Managing web application firewall (WAF).
- Providing code review and security reports.

IT Consultant and Software Architect

- Consultant for the university e-services.
- Implementing and designing several initiatives and portals.
- Preparing the statistical reports.
- IT director and developer of several platforms at deanship of quality and development.

Lecturer and Full-Stack Developer

- Linux and windows servers' administration.
- Innovator and full-stack developer.
- Technical writing and documentations.
- Installing, testing, and integrating systems.
- Teaching several courses in IT & Math.

Lecturer

- Teaching visual programing language.
- · Teaching mathematics and statistics.
- Course management, assessment and reviewing textbook and curricula.

AWARDS

Deanship of Scientific Research Certificate of appreciations

Vice Rector of Development Certificate of appreciations

Deanship of IT **Certificate of appreciations**

Datamatix - Dubai Best electronic initiative prize

Deanship of Preparatory Year Distinguished instructor

LANGUAGES

English (Fluent)

EDUCATION

Master's degree

Applied Mathematics Jordan, Sep 2005 - Feb 2007

Bachelor's degree

Applied Mathematics

Jordan, Sep 1998 - Feb 2002

Jordan University of Science and Technology

Thesis: Modified algorithm for solving linear partial differential equations using Taylor polynomial.

Jordan University of Science and Technology Project: Software for solving differential equations

using extrapolation algorithm.

LINUX SKILLS

Installation, Configuration, Administration and Upgrade of Ubuntu Linux Operating systems.

Worked on Shell scripts to run, kill, Monitor, backup, rollback and archive all files for Server.

Installed, monitored and managed several virtual hosts on VMware ESXi using the software vSphere client.

Wrote Shell scripts for monitoring the systems and applications, backup databases and file systems, and run Cron job.

Configuring distributed file systems and administering NFS server and NFS clients and editing auto-mounting mapping as per system/user requirements.

High availability and performance in Ubuntu Linux server (Cluster nodes using GlusterFS, load balancing with NFS shared storage and single node "Active-Passive" with Rsync and database replication).

Strong technical background in Storage, Disk Management, Logical Volume Management (LVM) and logical partitioning.
